EDUCATION

•National Institute of Technology Warangal

2023 – 2027

B.Tech in Civil Engineering & Minor in Computer Science Engineering

CGPA: 8.85/10 (Major) | 8.75/10 (Minor)

•Delhi Public School, Ranchi

2023

Senior Secondary (CBSE)

Percentage: 94.8%

•St. Thomas School, Ranchi

2021

Secondary (ICSE)

Percentage: 97.6%

EXPERIENCE

•Xelron AI

Ongoing

Software Development Engineer Intern

Bengaluru, Karnataka

- Built 32 Dockerized debugging benchmarks for the AfterQuery Pluto platform, creating Python/Bash failure scenarios, oracle solutions, and pytest-based verification suites with 1,200+ automated validation checks.
- Delivered all 32 tasks through Pluto's evaluation pipeline, achieving 25 approved benchmarks and 7 Ready-for-Review submissions after validation across 13 LLM evaluation runs per task.

•AICTE Edunet Foundation

Sep 2025 – Oct 2025

AI & Cloud Technology Intern

Remote

- Completed a 4-week AI & Cloud Technology internship, undertaking 20+ hours of training in Machine Learning and AI Ethics through IBM SkillsBuild.
- Designed and developed **AURA**, an AI-powered Medichatbot application, independently executing all 4 phases of the development lifecycle.

PROJECTS

•Algorithmic Trading Engine Simulator

Java 17, Maven, Swing, Multithreading

View on GitHub

- Built a multi-threaded stock exchange simulator supporting limit/market orders, real-time trade execution, and portfolio settlement across multiple assets.
- Designed a thread-safe order matching engine using `PriorityQueue`, `ConcurrentHashMap`, and `ReentrantLock`, implementing FIFO and Pro-Rata matching strategies.
- Applied Strategy and Observer design patterns to enable pluggable matching algorithms and automated portfolio updates through real-time trade notifications.

•AI Student Travel Planner

Python, Streamlit, Unicorn, Gemini API

View on GitHub

- Developed a full-stack Generative AI travel planning platform that generates personalized student-friendly itineraries based on destination, budget, duration, and travel preferences.
- Built a responsive Streamlit frontend and asynchronous Unicorn-powered backend, enabling seamless itinerary generation and efficient request handling.
- Integrated Google Gemini APIs with secure user-provided API key management to deliver customized travel recommendations, trip schedules, and location insights while reducing manual trip-planning effort by approximately 70%.

TECHNICAL SKILLS AND INTERESTS

Languages: C++, Java, Python, SQL, JavaScript, HTML/CSS

Frameworks/Libraries: ReactJS, Tailwind CSS, LangChain

Cs Fundamentals: DSA, OS, OOP, DBMS, CN

Tools: Git, Docker, Maven, Linux, Google Cloud Platform

Soft Skills: Problem Solving, Analytical Thinking, Team Collaboration, Communication, Leadership

Areas of Interest: Software Engineering, Full-Stack Development, AI/ML, GenAI

POSITIONS OF RESPONSIBILITY

•Additional Secretary (PR Wing), Software Development Club (SDC)

2025 – 2026

•Executive Member, Hindi Literary and Debating Club (HLDC)

2023 – 2026

•Joint Secretary, Civil Engineering Association (CEA)

2023 – 2026

•College Ambassador, IIT Bombay Techfest

2025 – 2025

ACHIEVEMENTS

•JEE Advanced & IAT: Qualified JEE Adv. and Secured AIR 2344 in IISER Aptitude Test

2023

•Minor in Computer Science: Ranked in the top 10% of students; selected based on academic merit.

2023

•Competitive Programming: Rating : 1071 on Codeforces

Ongoing

•National-Level Arithmetic Competition: Secured All India Rank 4

2016

•SOF National Science Olympiad: Secured State Rank 12

2015

•Hackathons: Participated in Smart India National Hackathon & SupraThon 2K25

2025

•UCMAS Mental Arithmetic: Participant Certification in International Std. Proficiency Exam

2018
